## Laura Bell Bundy Rocks ACM Awards Using Nady Wireless

**Emeryville, CA** –Broadway veteran Laura Bell Bundy kicked up her boots and performed her rousing hit single, “Giddy On Up” at the 2010 Academy of Country Music Awards in Las Vegas on April 18<sup>th</sup>. The single is from her just-released second country album, “Achin’ and Shakin’” which debuted at #5 on the Billboard Top Country Albums charts. Laura’s performance was impeccably choreographed, mesmerizing the large crowd. “Giddy On Up” was clearly a highlight of the evening.

Enhancing Laura’s rollicking performance and giving her the freedom to kick up her heels beside her backup dancers onstage was her **Nady W-1KU LT wireless microphone system** and **Nady HM-20U head mic**. The **W-1KU** is a 1,000-channel select UHF system with 1,000 user switchable frequencies per band. The unit provides unsurpassed state-of-the-art PLL UHF performance with 120 dB dynamic range and operation up to 500 ft. The **W-1KU** also features ASC™ (Auto-Select Channels) download which sends selected GROUP/CHANNEL information to the transmitter via IR sender for easy frequency synchronization. Laura’s headmic, the **HM-20U**, is Nady’s popular ergonomic, full-frequency, uni-directional electret condenser mic with warm, transparent audio and maximum feedback rejection.
